Fertilizer spreader FERTI-2 for farmers and agricultural contractors. With two spreading discs it is used for uniform distribution of all kinds of mineral fertilizers. Each disc has two adjustable vanes and hydraulic regulation of fertilizer flow. Long life time is assured with bottom of the hopper, spread rate control, spreading discs and vanes made from INOX.

Bag opener as option

Agitator

Clear, easy to read scale for comprehensive setting of spread rate control

Automatic chain tension

INOX spreading disc with adjustable vanes

Side limiter for spreading on field edges as option
