Gentle Cut by INO

GENTLEcut electro control

"Gentle Cut" is an innovative advanced smart electronic control of hydraulic side mounted rotary cutter BDR, BD, BDL. "Gentle Cut" is recommended for use in young orchards, vineyards, berry plantations (blueberries) and wherever it is a small distance between plants. It assures fast, precise and smooth mulching around plants.

The "Gentle Cut" system allows the user full control over the hydraulic side mounted rotary cutter from the tractor via the cab operator. The cab controller allows the user the following four functions: back into the transport position, automatic operation of the cutter, withdrawal of the cutter at the command of the operator and extended locked operating mode (independent from the sensor).

Model			Mulching Reach Out					
	Working Width	Total Width		Oil Type	Tank Volume (L)	Blade	Weight (kg)	Ø (cm)
BDR 60 Gentle Cut	54	58	43	HD 46	52	2	232	2
BD 60 Gentle Cut	54	58	43	/	/	2	83	2

GENTLEcut – advantages:

- adjustable sensor height
- gentle encirclement of the plant
- uniform running of BD
- easy to operate
- can be adjusted according to the sensitivity of plants
- faster initiation of appropriate movement
- additional useful operations
